EDUCATION:

Leading University, Sylhet, Bangladesh

Bachelor of Science in Computer Science & Engineering

PROFESSIONAL EXPERIENCE:

Darun Tech

October 2024 – Present

Part-Time Remote Web Developer

- Develop and maintain scalable full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Build responsive, user-centric interfaces and integrate RESTful APIs for seamless application performance.
- Collaborate with cross-functional teams to deliver high-quality web solutions using Agile methodologies.
- Optimize application performance, resolve technical issues, and manage deployments using Git, Vercel, and modern development tools.

AC Tech Institute

IT Instructor

January 2025 – July 2026

- Deliver engaging and hands-on instruction in HTML, CSS, JavaScript and responsive web design to diverse student populations.
- Develop and maintain up-to-date curriculum and instructional materials aligned with current web development trends and industry standards.
- Mentor students through capstone projects, resulting in portfolio-ready web applications.
- Assess performance and provide personalized feedback to support skill development through one-on-one coaching and group mentoring.

Graffix Innovation, Remote

June 2023 – September 2024

Part-time IT Project Analyst

- Managed client projects involving graphic design, digital marketing and web application from planning to delivery.
- Coordinated effectively with developers and designers to ensure timely, high quality project outcomes aligned with client goals.
- Served as primary client contact, gathering requirements, setting expectations, and ensuring satisfaction through regular communication.

ACADEMIC PROJECTS:

- **Medify247:** Developed a full-stack healthcare platform with appointment booking, home diagnostic services, subscription management, secure authentication, and an administrative dashboard.
- **JobNest:** Built a cross-platform job portal with React Native, enabling job search, application tracking, employer job posting, real-time updates, and personalized user dashboards.
- **Blood Donation Platform:** Developed a community blood donation system connecting donors and recipients through donor search, blood request management, authentication, and an administrative dashboard.
- **Personal Accountant:** Built a personal finance management web application with income and expense tracking, budget management, financial analytics, interactive dashboards, and secure cloud data storage.

SKILLS:

- **Programming Languages:** JavaScript (ES6+), Python, HTML5, CSS3
- **Frontend:** React.js, React Native, Tailwind CSS, Redux, React Router, Responsive Web Design, Vite
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Databases:** MongoDB, Mongoose, Supabase, Firebase
- **Cloud & Deployment:** AWS, Vercel, Netlify
- **Tools & Technologies:** Git, GitHub, Docker, Postman, npm, VS Code
- **Core Competencies:** Full-Stack Web Development • API Integration • Authentication & Authorization
 - Role-Based Access Control (RBAC) • Payment Gateway Integration • Database Design • CRUD Operations
 - Responsive UI Development • Performance Optimization • Agile Development • Software Debugging
